

ALMONT VILLAGE NOTICE

October 19, 2020, will be the last day for brush pick-up in the Village of Almont. Emterra will pick up yard waste and leaves in containers marked with an X, or in biodegradable yard waste bags until the last garbage day in November.

Leaf Collection will tentatively begin on the third week of October and run until the Monday before Thanksgiving, or until the first heavy snow whichever comes first.

Please do not place leaves to the curb until close to the start date. Leaves piled on the road surface can make stopping difficult, and piles of leaves can obscure potholes, curbs, and street markings. Debris blown onto our roadways can also clog our storm drains. Residents will be notified to remove any leaves placed in the roadway. Please keep rocks and sticks out of the leaf piles as it can damage equipment. The DPW only collects leaves raked to the curb in the fall.
