December 22, 2021

Effective immediately, the Village of Almont has lifted the boil water advisory for customers on Main Street south of Water Street that took effect on December 20, 2021.

The Village of Almont received confirmation from the laboratory indicating that the most recent round of testing shows no bacterial contamination in the Village's water supply and was tested by the lab indicating the water meets the Safe Drinking Water Act.

**While the boil water advisory has been lifted, The Village of Almont recommends that if water has not been used for six hours or more, water should run from the tap until it is cold and continue to run for an additional two minutes for fresh water.**

The Village of Almont appreciates the patience of our customers during the water advisory. The Village asks residents and businesses in the area to share this update with their neighbors.

David Trent  
Village Manager

*"We're growing in the right direction."*
